

Congratulations on your new Planit Kitchen

This Care Pack contains items & advice on how to care for your kitchen surfaces.

Contents of Pack: Touch-up paint & Brush, Microfibre Cloth & Instructions on how keep your kitchen looking amazing. Please store your touch-up paint in the fridge. This paint will have a shelf life of approximately 12 months.

Painted Doors & Panels: Doors can easily be cleaned using warm soapy water and a soft cloth or sponge. Towel dry afterwards with a soft microfibre cloth. For stubborn stains the use of window cleaner spray is advised, wiping over gently with a soft microfibre cloth.

Avoid all use of abrasive, solvent-based or cream cleaners as this will damage the painted finish.

If you experience a small chip in the paintwork; this is where the touch-up kit is used. You will have the colour Part A & the other bottle is the Part B. Follow these instructions.

1. Grab a small plastic container (top of a 2L milk) is ideal.
2. Shake the contents of each small bottle & add a small amount of Part A into the lid, then add half the amount of Part B and mix with the small brush.
3. After mixed dip brush into paint and apply paint to the chipped surface. Make sure there isn't too much paint on the chip as this might drip or run. If you feel that more needs to be applied wait 30mins and apply paint again.
4. After you have completed the repairs, leave the paint to harden overnight & dispose of responsibly. The brush can be cleaned in a small amount of Nail Polish Remover with Acetone.
5. Store the remaining paint in the fridge for longevity, making sure the lids are replaced tightly.

Stainless Steel Surfaces: Use a microfibre cloth for everyday cleaning. Remove fingerprints with your preferred cleaner. Use rubbing alcohol to dissolve oil on tuff spots and apply Home Brand Baby Oil (Woolworths) this works best when used to polish the fridge & remove finger marks.

Wipe off any excess cleaner then polish it with the baby oil afterward. It removes the marks and polishes the steel. Leaving it clean and shiny as well as smelling fresh.

By following these simple steps you'll enjoy your Planit Kitchen for years to come.
